Team ID	PNT2022TMID19926
Project Name	A Gesture Based Tool For Sterile Browsing Of Radiology Images

Prior Knowledge

Deep Learning Concepts

- **CNN:** a convolutional neural network is a class of deep neural networks, most commonly applied to analyzing visual imagery.

- **Opencv** – It is an Open Source Computer Vision Library which are mainly used for image processing, video capture and analysis including features like face detection and object detection.

- **Flask:** Flask is a popular Python web framework, meaning it is a third-party Python library used for developing web applications.
